

Name: *Tasnim Haque Ankhi*

Address: 56 Sylhet, Bangladesh

Phone: 01782032489

Email: tasnim.haque.ankhi.blockchain@gmail.com

Objective

Detail-oriented **Blockchain Developer** passionate about decentralized technologies, smart contracts, and secure digital ecosystems. Seeking a challenging role where I can apply blockchain, cryptography, and full-stack development skills to build transparent and scalable systems.

Summary of Qualifications

- Bachelor of Science in Computer Science from **Stanford University**
 - Strong proficiency in **Solidity, Python, and JavaScript**
 - In-depth knowledge of **Ethereum, Hyperledger Fabric**, and decentralized applications (DApps)
 - Experienced in **smart contract design, token standards (ERC-20/721)**, and blockchain integration
 - Familiar with **cryptographic protocols**, consensus mechanisms, and distributed ledger technologies
 - Excellent problem-solving, analytical, and collaboration abilities
-

Education

Bachelor of Science in Computer Science

Stanford University, Palo Alto, CA

GPA: 3.87 / 4.0

Technical Skills

- **Programming Languages:** Solidity, Python, JavaScript, C++
- **Blockchain Platforms:** Ethereum, Hyperledger Fabric, Web3.js, Truffle, Ganache
- **Web Development:** React, Node.js, Express
- **Databases:** MongoDB, IPFS
- **Version Control:** Git, GitHub
- **Tools:** MetaMask, Remix IDE, Hardhat, Docker

- **Operating Systems:** Linux, macOS
-

Professional Experience

Blockchain Developer | ChainForge Labs

Jan 2023 – Present

- Developed and deployed **Ethereum-based smart contracts** for secure supply chain tracking.
- Implemented **ERC-20 and ERC-721 token standards** for asset and NFT management.
- Integrated blockchain APIs into React-based front-end using **Web3.js**.
- Conducted **smart contract audits** and optimized gas usage for cost efficiency.

Blockchain Intern | BlockCore Technologies

May 2022 – Dec 2022

- Assisted in building a **blockchain voting prototype** using Hyperledger Fabric.
 - Implemented RESTful APIs to connect the blockchain network with a mobile application.
 - Participated in team meetings for architecture design and system deployment.
-

Projects

- **CryptoWallet DApp:** Designed a decentralized wallet for Ethereum transactions using **React, Solidity, and Web3.js** for real-time blockchain interaction.
 - **EduChain:** Developed a **blockchain-based academic certificate verification system** using **Solidity and IPFS** for secure document storage and verification.
-

Certifications

- **Certified Blockchain Developer**, Blockchain Council
 - **Ethereum Smart Contract Developer**, Udemy
-

Languages

- English (Fluent)
- Bengali (Native)
- Spanish (Intermediate)
