

Name: *Noah Bennett*

Address: 150 Park Lane, Boston, MA 02115

Phone: 617 903-8426

Email: noah.bennett.cyber@gmail.com

Objective

Results-oriented **Cybersecurity Analyst** with expertise in threat analysis, network protection, and vulnerability assessment. Seeking to enhance enterprise security posture through proactive risk management.

Summary of Qualifications

- Bachelor's in Computer Science (Cybersecurity Track), Northeastern University
- 4 years' experience in network security and incident response
- Proficient in SIEM tools (Splunk, QRadar) and penetration testing
- Certified Ethical Hacker (CEH) and CompTIA Security+
- Strong analytical, documentation, and communication skills

Education

Bachelor of Science in Computer Science (Cybersecurity)

Northeastern University, Boston

GPA: 3.7 / 4.0

Technical Skills

- **Security Tools:** Wireshark, Metasploit, Nmap, Burp Suite
- **Programming:** Python, PowerShell, Bash
- **SIEM Platforms:** Splunk, IBM QRadar, Elastic Stack
- **Network Protocols:** TCP/IP, VPN, DNS, Firewalls
- **Operating Systems:** Linux (Ubuntu), Windows Server

Experience

Cybersecurity Analyst | SecureNet Solutions

- Performed real-time threat monitoring for 500+ client endpoints.
- Conducted vulnerability scans and mitigated network exploits.
- Authored internal incident-response procedures improving response time by 25%.

Intern | InfoGuard Labs

- Assisted in penetration testing of enterprise web apps.
- Automated log-analysis scripts using Python.

Projects

- **Intrusion Detection System:** Developed Python-based IDS for small networks.
- **Phishing Email Classifier:** Used ML model to detect phishing emails (94% accuracy).

Certifications

- Certified Ethical Hacker (CEH)
- CompTIA Security+
- AWS Security Specialty (Course Completion)

Languages

- English (Fluent)
- German (Basic)
