

Name: Dr. Farhan Rahman

Address: 98 Green Valley Road, Dhaka, Bangladesh

Phone: 017 613-9725

Email: farhan.mlengineer@gmail.com

Objective

Innovative **AI & Machine Learning Engineer** with expertise in deep learning and computer vision. Seeking to apply advanced ML algorithms to solve real-world problems in healthcare and automation.

Summary of Qualifications

- Ph.D. in Artificial Intelligence, BRAC University
- Skilled in CNN, RNN, and Transformer models
- Experienced with TensorFlow, Keras, and PyTorch
- Strong knowledge of computer vision, NLP, and data preprocessing
- Published 4 research papers in IEEE conferences

Education

Ph.D. in Artificial Intelligence — BRAC University — 2022

M.Sc. in Computer Science & Engineering — BUET — 2017

B.Sc. in Electrical & Electronic Engineering — BUET — 2014

Technical Skills

- **Languages:** Python, C++, MATLAB
- **Frameworks:** TensorFlow, Keras, PyTorch, OpenCV
- **Tools:** Jupyter, Git, Docker, CUDA
- **Cloud:** AWS EC2, Google Colab, Azure ML

Experience

Machine Learning Engineer | DeepMind Analytics (2022–Present)

- Designed CNN-LSTM models for early disease detection using MRI data.
- Improved training efficiency by 30% through hyperparameter optimization.

Research Assistant | BRAC University (2017–2021)

- Conducted AI research in image classification and natural language generation.
- Managed GPU cluster and large-scale data pipelines.

Projects

- **Smart EEG-based Brain Tumor Detection** using CNN-LSTM and IoT sensors.
- **AI Chatbot for Healthcare** with sentiment and intent recognition.

Certifications

- TensorFlow Developer Certificate
- Coursera Deep Learning Specialization (Andrew Ng)

Languages

- English, Bengali
