

Name: *Priya Nandi*

Address: 220 Lakeview Street, Kolkata, India

Phone: 919 876-2754

Email: priya.nandi.iot@gmail.com

Objective

Dedicated **IoT Systems Engineer** with strong background in sensor integration, cloud data management, and embedded system design. Interested in smart city and healthcare automation solutions.

Summary of Qualifications

- B.Tech in Electronics and Communication Engineering
- 4 years' experience in IoT product design and testing
- Expertise in ESP32, Raspberry Pi, and Arduino platforms
- Skilled in MQTT, Node-RED, and Firebase
- Good understanding of cybersecurity in IoT networks

Education

B.Tech in Electronics & Communication Engineering — IIT Kharagpur — 2018

Technical Skills

- **Hardware:** Arduino, ESP32, Raspberry Pi, STM32
- **Software:** Python, C, C++, Node.js
- **IoT Platforms:** ThingSpeak, AWS IoT, Blynk, IFTTT
- **Networking:** MQTT, HTTP, CoAP

Experience

IoT Engineer | TechLink Innovations (2019–Present)

- Developed baby monitoring system with Wi-Fi alerting and mobile notifications.
- Designed cloud dashboard for environmental sensor data visualization.

Intern | NXP Semiconductors (2018)

- Assisted in sensor calibration and embedded system programming.

Projects

- **Smart Healthcare Band:** Real-time ECG, SpO₂ & temperature monitoring.
- **Smart Walking Stick for Visually Impaired:** Object detection using computer vision.

Certifications

- Cisco IoT Fundamentals
- AWS Certified IoT Developer

Languages

- English, Hindi, Bengali
