

Name: Md. Arif Chowdhury

Address: 76 Dhanmondi, Road 10, Dhaka, Bangladesh

Phone: 017 115-58932

Email: arif.blockchain.bd@gmail.com

Objective

Skilled **Blockchain Developer** passionate about building secure, transparent, and decentralized applications. Seeking to innovate in fintech and healthcare blockchain solutions.

Summary of Qualifications

- M.Sc. in Computer Science (Blockchain Focus), United International University
- 3 years' hands-on experience with Ethereum and Solidity smart contracts
- Knowledge in Hyperledger Fabric and Web3 integration
- Strong cryptography and distributed ledger understanding

Education

M.Sc. in Computer Science (Blockchain Specialization) — UIU — 2022

B.Sc. in Computer Science & Engineering — Daffodil International University — 2019

Technical Skills

- **Languages:** Solidity, JavaScript, Python
- **Blockchain Platforms:** Ethereum, Hyperledger, Polygon
- **Tools:** Truffle, Remix, Ganache, MetaMask
- **Databases:** IPFS, MongoDB
- **Frontend:** React.js, Web3.js

Experience

Blockchain Developer | BlockWave Labs (2022–Present)

- Built smart contracts for healthcare record storage using Ethereum.
- Integrated blockchain with IoT sensors for secure medical data transfer.

Intern | CryptoAsia (2021)

- Implemented token standard (ERC-20) contracts for crowdfunding platform.

Projects

- **Blockchain-based Patient Record System** integrated with IoT monitoring.
- **NFT Marketplace:** Secure minting and trading platform using React & Solidity.

Certifications

- Ethereum Developer Certification (Udemy)
- IBM Blockchain Foundation Developer

Languages

- English, Bengali
